

## Word File example

Click print

Choose your printer

Choose **PRINT**

Then release your work from the Print Release Station next to the printer you have chosen (except for Adaptttech, Sturt 3 and Sturt 4 which print directly)

The screenshot displays the Microsoft Word print interface. On the left, a blue sidebar contains a navigation menu with options: Info, New, Open, Save, Save As, History, **Print**, Share, Export, Close, Account, Options, and Feedback. The 'Print' option is highlighted. The main window shows the 'Print' dialog. At the top, the word 'Print' is displayed. Below it, a printer icon is shown next to a 'Copies' dropdown menu set to '1'. A 'Print' button is highlighted with a black box. Below this, a 'Printer' dropdown menu is set to 'Central 1' and is also highlighted with a black box. The 'Printer Properties' link is visible below the printer selection. The 'Settings' section includes several options: 'Print All Pages' (The whole thing), 'Pages' (input field), 'Print One Sided' (Only print on one side of th...), 'Collated' (1,2,3 1,2,3 1,2,3), 'No Staples', 'Portrait Orientation', 'A4 (210 x 297 mm) 21 cm x 29.7 cm', 'Narrow Margins' (Left: 1.27 cm Right: 1.27...), and '1 Page Per Sheet'. The 'Page Setup' link is at the bottom right.
